Art Unit: 1723

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to a fluid cleaning system, classified in class 210, subclass 180.
- II. Claims 15-19, drawn to a fluid cleaning system, classified in class 210, subclass 180.

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombinations, for example a vent having a valve (claim 5), the mesh (claim 13), or the surface contour (claim 14). The subcombination has separate utility such as without a filter.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

This application discloses the following species of filter systems that correspond with the drawing Figures as follows.

<u>Species</u>	<u>Figure</u>
F1	2

F2	3
F3	4
F4	5
F5	6
F6	7

This application contains the following species of evaporation surfaces which correspond to the drawing Figures as follows.

<u>Species</u>	<u>Figure</u>
E1	2
E2	3
E3	4
E4	5

This application contains claims directed to the following patentably distinct species of the claimed invention:

Claims 1-2, 12 correspond to species E1-E4;

Claims 3, 18, and 20 correspond to a species that is not shown;

Claims 4-7 correspond to species F1, F2, F4, and E2;

Claims 8-10 correspond to species E3 and E4;

Claim 11 corresponds to species E1-E4 and F2;

Claim 13 corresponds to species F3 and E4;

Claim 14 corresponds to species E3 and E4;

Claim 15 corresponds to species F2, E3, and E4;

Claim 16 corresponds to species F3, F4, and F6;

Claim 17 corresponds to species F3;

Art Unit: 1723

Claim 19 corresponds to species F5.

Applicant is required under 35 U.S.C. 121 to elect one of species F1-F6 and one of species E1-E4 for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

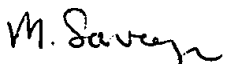

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew O Savage whose telephone number is 703-308-3854. The examiner can normally be reached on Monday-Friday, 6:00am-2:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wanda W. Walker can be reached on 703-308-0457.
